

Allergen matrix

Every menu item against the 9 major U.S. allergens, contains vs. cross-contact

LOCATION _____ MENU VERSION _____ DATE _____ PREPARED BY (CHEF) _____

REVIEWED BY _____

[illegible]

Mark Y where the allergen is an ingredient, X where cross-contact is possible (shared fryer, grill, board, or utensil). These are the FDA's 9 major food allergens, sesame included since the FASTER Act took effect January 1, 2023. Update this matrix the day the menu or a supplier changes, not at the next scheduled review.
